11 April 1956

MEMORANDUM FOR: Mr. Bissell

SUBJECT: [REDACTED]

1. Reference memorandum from Director of Administration received by this office 11 April 1956, the following is the proposed plan for [REDACTED] trip:

2. The departure date is unknown at this time, however, it is suggested he depart within two days after receipt of notification

From previous discussions with [REDACTED] he has indicated he will send one or two qualified installation engineers to accompany Mr. [REDACTED]. It is estimated it will require [REDACTED] approximately 5-7 days [REDACTED] to completely review facilities and establish the tentative engineering layout of our proposed operation.

3. Upon completion of business [REDACTED] will return [REDACTED] where the proposed layout will be converted into detailed engineering plans and specifications. These plans will include a bill of materials and a complete estimate of costs. The bill of materials will be further divided into those items furnished by the theater and those items that must be procured and shipped from the ZI. The cost estimate will be sub-divided into those costs which will be absorbed by USARP and those costs to be absorbed by the Agency. It is estimated this will require [REDACTED] a minimum of 10 days to two weeks at [REDACTED]. Upon completion of this phase [REDACTED] will return to Washington at which time this office will take necessary action to coordinate our requirements with the Air Force and SAC.

4. Based upon the status [REDACTED] at that time, recommendations will be presented to you, for your approval, outlining our proposed action.

5. I feel if it is at all possible it would be most profitable if you could spend a few moments with [REDACTED] prior to your departure.
